L'ARTE NELLA LAVORAZIONE DEL TUBO INOX

BUSINESS PRESENTATION

We are pleased to introduce our Company:

The Verona inox srl was founded in 1991 as a small company specializing in the manufacture of stainless steel tube which over the years has been able to consolidate and expand the range of its processes and products, providing you with all the know-how and experience gained over the years, to meet every need and request.

The range of products we offer is extended and variable depending on the scope.

We operate in different industries and for a variety of organizations such as: oil mills, cellars, tank manufacturers, products for swimming pools, machines for dry cleaners, laundries and private.
